

## PECB Certified ISO/IEC 27005 Foundation

Become acquainted with the best practices of Information Security Risk Management based on ISO/IEC 27005

### Why should you attend?

By attending this training course, participants will learn more about the structure of the standard including information security risk assessment, treatment, acceptance, communication and consultation, and monitoring and review. They will also gain basic knowledge related to information security risk management based on other standards such as ISO/IEC 27001 and ISO 31000.

After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for a "PECB Certified ISO/IEC 27005 Foundation" credential. A PECB Foundation certificate shows that you have knowledge on the fundamental concepts, principles, methodologies, processes, and management approaches used in information security risk management.
